

## To whom it may concern

Dated: April 23, 2018

This is to certify that **Anwaar Saaed Saad Althagafi (43307877)** is known to me as my student in "1401432-3 Introduction to Artificial Intelligence" course during year 1437/38. She accomplished distinction in the course by obtaining a unique A+ (95%) grade in the course.

During the course, she performed as an inquisitive student which possesses the right amount of drive to learn new concepts. I can confidently rate her among the elite-students in terms of originality, creativity, honesty and ability to pursue independent study.

Anwaar has shown good capabilities of solving projects by implementing the ideas independently. I feel that if given an opportunity she can prove herself a pertinent resource to any academic and/or scientific position. And, I would also like to recommend her for admission in postgraduate studies and scholarship and wish her all the best in her future endeavors. Please let me know if any further information is needed in this regard.

Sincerely,

Dr. Mohsin Bilal  
Lecturer  
Department of Computer Science  
Umm Al-Qura University, Makkah
